INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No.

PCT/JP 03/15429

I.	Basis	of the	report
	Dasis	OI HIG	1 CD CI L

1. With regard to the **element**s of the international application (Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)):

	Des	cription, Pages			
	1-13	3	as originally filed		
Claims, Numbers					
	1-16	· 3	as originally filed		
2. With regard to the language , all the elements marked above were available or furnished to this Aut language in which the international application was filed, unless otherwise indicated under this item					
	The	These elements were available or furnished to this Authority in the following language: , which is:			
		the language of a tra	nslation furnished for the purposes of the international search (under Rule 23.1(b)).		
		the language of publi	cation of the international application (under Rule 48.3(b)).		
		the language of a tra Rule 55.2 and/or 55.3	nslation furnished for the purposes of international preliminary examination (under 3).		
3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, international preliminary examination was carried out on the basis of the sequence listing:					
		contained in the inter	national application in written form.		
		filed together with the	e international application in computer readable form.		
		furnished subsequen	tly to this Authority in written form.		
		furnished subsequen	tly to this Authority in computer readable form.		
		The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.			
		The statement that the listing has been furni	ne information recorded in computer readable form is identical to the written sequence shed.		
4.	The	amendments have re	esulted in the cancellation of:		
		the description,	pages:		
		the claims,	Nos.:		
		the drawings,	sheets:		
5.		This report has been been considered to g	established as if (some of) the amendments had not been made, since they have go beyond the disclosure as filed (Rule 70.2(c)).		
		(Any replacement sh report.)	reet containing such amendments must be referred to under item 1 and annexed to this		
6.	Add	litional observations, i	f necessary:		

INTERNATIONAL PRELIMINARY **EXAMINATION REPORT**

International application No.

PCT/JP 03/15429

11	l. No	on-establishment of opinion with regard to novelty, inventive step and industrial applicability
1.	. Th	e questions whether the claimed invention appears to be novel, to involve an inventive step (to be non- vious), or to be industrially applicable have not been examined in respect of:
		the entire international application,
	\boxtimes	claims Nos. 16
		because:
	⊠	the said international application, or the said claims Nos. 16 relate to the following subject matter which does not require an international preliminary examination (specify):
		see separate sheet
		the description, claims or drawings (indicate particular elements below) or said claims Nos. are so unclear that no meaningful opinion could be formed (specify):
		the claims, or said claims Nos. are so inadequately supported by the description that no meaningful opinion could be formed.
		no international search report has been established for the said claims Nos.
2.	٠. ٠	neaningful international preliminary examination cannot be carried out due to the failure of the nucleotide and/ amino acid sequence listing to comply with the standard provided for in Annex C of the Administrative tructions:
		the written form has not been furnished or does not comply with the Standard.
		the computer readable form has not been furnished or does not comply with the Standard.
V.	Rea cita	soned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; tions and explanations supporting such statement

INTERNATIONAL PRELIMINARY EXAMINATION REPORT - SEPARATE SHEET

International application No. PCT/JP 03/15429

Ad III

Claim 16 relates to subject-matter considered by this Authority to be covered by the provisions of Rule 67.1(iv) PCT. Consequently, no opinion will be formulated with respect to the industrial applicability of the subject-matter of this claim (Article 34(4)(a)(I) PCT).

Ad V

- 1. Reference is made to the following documents:
 - D1: US-A-4 687 782 (BRANTMAN EUGENE R) 18 August 1987 (1987-08-18)
 - D2: FR-A-2 758 243 (AJINOMOTO KK) 17 July 1998 (1998-07-17)
 - D3: WO 99/49741 A (NESTLE SA ;BOZA JULIO (CH); BALLEVRE OLIVIER (CH); FINOT PAUL ANDR) 7 October 1999 (1999-10-07)
- 2. The medical effect of leucine, isoleucine, valine, glutamine and whey protein was known in the art:

D1 discloses a diet supplement for enhancing skeletal muscle adaptation to exercise training, containing leucine, isoleucine, valine, glutamine and lactalbumin. The amounts disclosed in claim 2 of D1 fall in the range of present claim 5. D1 therefore is considered to anticipate (Article 33(2) PCT) the subject-matter of claims 2-5,7-11 and 13-16. The subject-matter of claims 6 and 12 is not considered to involve an inventive step (Article 33(3) PCT) in view of D1, because the concentration of the active ingredients falls in the ranges cited above and are not considered to bring about an extra effect.

D2 discloses (see claims 1-10) a nutritional composition for animals, especially racing horses, containing leucine, isoleucine, valine and glutamine.

D3 discloses (p.1 I.31-33, p.4 I.4-13 and claims 1-10) a nutritional composition for athletes, comprising whey protein, which is stated to increase plasma glutamine levels.

The subject-matter of claims 1-16 is not considered to involve an inventive step in view of the combined teachings of D2 and D3.
